

SI	Module	Competency Unit	Elements	Schedule Date	Actual Date
1	Module07	STCESADJ2 EE 701	Introducing Spring Introducing Spring	02/05/2026	19/05/2026
2	Module07	STCESADJ2 EE 701	Spring Configuration in Detail Spring Configuration in Detail	03/05/2026	20/05/2026
3	Module07	STCESADJ2 EE 601	3.Introducing IoC and DI in Spring Inversion of Control and Dependency Injection,Types of Inversion of Control,Dependency Pull ,Injection.,Inversion of Control in Spring.,Dependency Injection with Spring..Beans and BeanFactories ..BeanFactory Implementations ..ApplicationContext Contextualized Dependency Lookup...,Constructor DependencyInjection.,Setter Dependency Injection....Injection vs. Lookup,Setter Injection vs. Constructor. Configuring ApplicationContext	04/05/2026	21/05/2026
4	Module07	STCESADJ2 EE 601	Introducing IoC and DI in Spring Spring Configuration Options (XML and Java Annotations)Basic Configuration Overview Declare Spring Components . Using Setter Injection..... Using Constructor Injection..... Avoiding Constructor Confusion ... Injection Parameters.....Injecting Simple Values Injecting Values Using SpEL ... Injecting Beans in the Same XML Unit... Injection and ApplicationContext Nesting. Using Collections for Injection . Using Method Injection . Lookup Method Injection Method Replacement Understanding Bean Naming Bean Name Aliasing Bean Instantiation Mode	05/05/2026	23/05/2026
5	Module07	STCESADJ2 EE 702	Spring Configuration in Detail Spring's Impact on Application Portability. Bean Life-Cycle Management Hooking into Bean Creation . Execute a Method When a Implementing the InitializingBean Interface.. Using JSR-250 @PostConstruct Annotati Making Your Beans "Spring Aware" . Using the BeanNameAware Interface.. Using the ApplicationContextAware Interfac Use FactoryBeans Custom FactoryBean Example: The MessageDigestFactoryBean.... Accessing a FactoryBean Directly Using the factory-bean and	06/05/2026	24/05/2026
6	Module07	STCESADJ2 EE 702	Introducing Spring AOP AOP Concepts Types of AOP. Static AOP Dynamic AOP Choosing an AOP Type AOP in Spring,"Hello World!" in AOP Spring AOP Architecture Joinpoints in SpringAspects in Spring About the ProxyFactory Class Creating Advice in Spring Interfaces for Advice Create Before AdviceSecuring Method Access Using Before AdviceCreating After-Returning AdviceCreating Around Advice Creating Throws Advice Choosing an Advice Type	07/05/2026	02/06/2026
7	Module07	STCESADJ2 EE 702	Introducing Spring AOP Advisors and Pointcuts in Spring The Pointcut InterfaceAvailable Pointcut Implementations Using DefaultPointcutAdvisor Creating a Static Pointcut Using StaticMethodMatcherPointcut Creating a Dynamic Pointcut Using DyanmicMethodMatcherPointcut Using Simple Name Matching Creating Pointcuts with Regular Expression Creating Pointcuts with AspectJ Pointcut Expression Creating Annotation Matching Pointcuts Convenience Advisor Implementations Understanding Proxies	09/05/2026	03/06/2026
8	Module07	STCESADJ2 EE 702	Spring JDBC Support Spring JDBC Support	10/05/2026	04/06/2026
9	Module07	STCESADJ2 EE 702	16.Using Hibernate in Spring Create a Hibernate Utility Project in Sample Data Model for Example CodeConfiguring Hibernate SessionFactory ORM Mapping Using Hibernate Annotations Simple Mappings One-to-Many Mappings Many-to-Many MappingsThe Hibernate Session InterfaceDatabase Operations with Hibernat	11/05/2026	06/06/2026
10	Module07	STCESADJ2 EE 602	17.Using Hibernate in Spring Query Data Using Hibernate Query LanguageSimple Query with Lazy Fetching Query with Associations Fetching Inserting Data Updating Data Deleting Data Considerations of Using Hibernatte	12/05/2026	07/06/2026

SI	Module	Competency Unit	Elements	Schedule Date	Actual Date
11	Module07	STCESADJ2 EE 605	20.Validation with Type Conversion and Formatting Creating a Project in STS for SamplesSpring Type Conversion SystemConversion from a String Using PropertyEditors Introducing Spring 3 Type ConversionImplementing a Custom ConverterConfiguring ConversionService Converting Between Arbitrary Types Field Formatting in Spring 3Implementing a Custom Formatter Configuring ConversionServiceFactoryBean Validation in Spring Using Spring Validator Interface Using JSR-303 Bean Validation Defining Validation Constraints on Object PropertiesConfiguring Bean Validation Support in Spring Creating a Custom ValidatorUsing AssertTrue for Custom Validation Considerations for Custom Validation Which Validation API to Use? Validation with Type Conversion and Formatting in the Sample Applicatio	16/05/2026	08/06/2026
12	Module07	STCESADJ2 EE 705	Using Spring Remoting , Using a Data Model for Samples . Implementing and Configuring SingerService Using Spring Remoting , Using a Data Model for Samples . mplementing and Configuring SingerService Using Spring Remoting , Using a Data Model for Samples . Implementing and Configuring SingerService Using Spring Remoting , Using a Data Model for Samples . mplementing and Configuring SingerService	17/05/2026	09/06/2026
13	Module07	STCESADJ2 EE 606	Web Applications Implementing the Service Layer for Samples Web Applications Implementing the Service Layer for Samples	18/05/2026	10/06/2026
14	Module07	STCESADJ2 EE 706	Understanding the Spring MVC Project Structure Enabling Internationalization (i18n) Understanding the Spring MVC Project Structure Enabling Internationalization (i18n)	19/05/2026	11/06/2026

SI	Module	Competency Unit	Elements	Schedule Date	Actual Date
15	Module07	STCESADJ2 EE 706	Spring Boot Framework esign Principles and Patterns Spring Framework 5 A Simple Spring Web Application Using Maven for Creating a Project Adding Dependencies Spring Web Configuration Classes Running the App	20/05/2026	13/06/2026
